Really fun game, An amazing world, Brings back good memories from my childhood, Well worth my money. The game is a promising 3rd person platformer, with a unique art style.

Here's my take on what can be improved:

- The camera system and controls could use some tweaking, possibly with the addition of acceleration and drag.
- Some sounds feel out of place, Like the beeping sound when jumping on a vanishing flower.
- The HUD and GUI would look much better if they were smaller.
- The attack animation can be improved (Although it's definitely an interesting way of punching)

Overall, I'm excited to see how the game improves in the future!. Fun and relaxing 3D platformer. There's not enough of those around.
